HarvestFresh

Inspirisan prirodom, pokrenut svetlošću

Vitamini u voću i povrću se više ne gube u frižideru! HarvestFresh tehnologija u 3 boje oponaša 24-časovni ciklus sunca unutar posude, čuvajući vitamine duže. Ova jedinstvena tehnologija u vašem frižideru će vam omogućiti da uživate u hranjivim obrocima i zdravijem načinu života.

Kompresori sa VDE sertifikatom

Naši kompresori, koji su sertifikovani od strane VDE, obezbeđuju svežinu vaše hrane uz dokazanu pouzdanost tokom 25 godina.

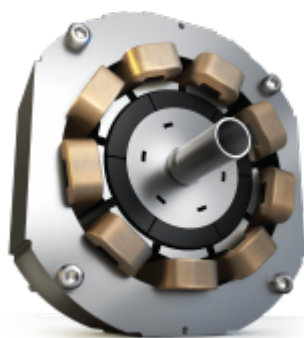

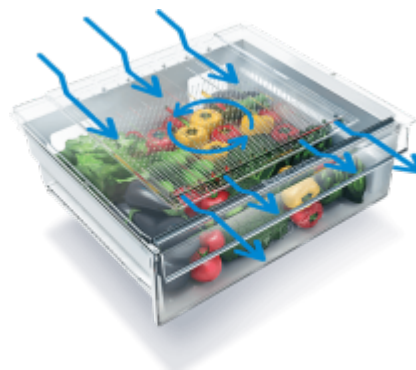

Iskusite vrhunsku inovaciju u oblasti Beko rashladnih uređaja, gde su najsavremenija tehnologija i trajni kvalitet naša prednost. Naši frižideri su opremljeni inverter kompresorima koji su detaljno testirani i sertifikovani od strane VDE za životni vek od 25 godina. Ovi kompresori su kamen temeljac funkcionalnosti našeg frižidera, pažljivo dizajnirani da održavaju optimalno okruženje za hlađenje. Uz Beko, ulažete u frižider koji je napravljen za dugovečnost i dizajniran da održava svežu hranu iz dana u dan.

EverFresh+

Up to 3x longer freshness

Your fresh groceries don't need to go bad every again. Precise temperature and humidity controls minimise condensation in your crisper, keeping your fruit & veg fresh for up to 3 times longer so you have all the healthy ingredients whenever you need them.

ProSmart Inverter Compressor

High efficiency, high durability, low noise

If your fridge is a humming, gurgling energy-hog, it's time to make the switch. Thanks to its innovative design, the ProSmart Inverter Compressor provides faster cooling with less energy and four times quieter operation than average refrigerator compressors. It adapts to temperature fluctuations quicker, keeps food fresh longer and saves on your energy bills, all at the same time.

MultiZone

Fridge to freezer with one touch

No matter what's on your shopping list, the flexible MultiZone compartment gives you extra freezer or fridge space instantly and for you to organise however you want. Adjust the temperature from -24°C to 10°C with the touch of a button and never worry how you'll squeeze in all that stuff from the store into the refrigerator.

CoolRoom

Meat, fish & dairy fresher for longer

Meat, fish, and dairy need lower temperatures to stay fresh. The CoolRoom compartment keeps these products at just above freezing temperatures and maintains optimum humidity. That way, food remains fresh and full of flavour for up to twice as long.

Led Illumination

Clear view of the inside

It can be tricky to see everything in your fridge, especially in the corners and at the back of selves. Led Illumination features chains of LED on the top of the fridge, and for every shelf on the side wall so you can see clearly throughout the cooler. It's more energy-efficient than standard lighting too.

Reversible Door

Adjustable door direction to fit your kitchen layout

Some kitchen layouts require that refrigerator doors open in one direction and not the other. Reversible Door allows door hinges to be placed on both the left and the right of the unit, so decide which way your fridge doors open. Plus, you can double your cooling capacity by placing two fridges side by side and reversing the doors of one.

Safety Glass

High-durability glass shelves

Ease your worries of putting that huge and heavy pot in the fridge with Safety Glass. Safety Glass shelves are made up of tempered glass and can carry loads of up to 25 kg. They resist cracks and scratches much better than un-treated glass, so you can store heavy items without a care.

Twist & Serve Ice Cube Tray

Easy-access ice cubes

Flex it, pinch it, hit it on the countertop and some ice trays will still not give in. Twist & Serve Ice Cube Tray overcomes these difficulties with a simple twisting action. The cubes are dropped inside the ice box. No mess, no fuss.

Vacation Mode

Extra energy saving

Get your fridge in the holiday spirit when you leave for vacation. Vacation Mode saves energy by shutting down the cooler section but keeping the freezer running. Frozen food will be preserved while you save on energy bills.
