

Energy Efficiency Class

E

- Led Illumination: clear view of the inside
- Minimum frost build-up
- Reversible Door: adjustable door direction
- Safety Glass: high-durability glass shelves that carry up to 25 kg

Key Features

Product Type	Table Top	Fitting Type	Freestanding
Height	84 cm	Width	48 cm
Depth	50 cm	Energy Efficiency Class	E
Cooling System Type	Static	Colour	White

Gross & Net Volume

Total Gross Volume	90 L	Total Net Volume	90 L
Total Volume (1)	90 L		

Fridge Features

Fridge Shelf Type	Glass	Number of Crispers	1
--------------------------	-------	---------------------------	---

Design

Reversible Door	Yes	LED Illumination	Yes
Control Type	Mechanical	Fitting Type	Freestanding
Door Handle Type	Flush	Colour	White

Performance & Consumption

Energy Efficiency Class	E	Annual Energy Consumption 25 °C	85 kWh/year
Daily Energy Consumption at 25 °C	0,23	Noise Level	41 dBA
Climate Class	ST	Climate Class	N-ST
Voltage	220 - 240 V	Frequency	50 Hz
Maximum Ambient Temperature Required for Satisfactory Operation (°C)	38		

Dimensions & Weight

Height	84 cm	Width	48 cm
Depth	50 cm	Weight	21 kg
Packaged Height	88.5 cm	Packaged Width	50 cm
Packaged Depth	53 cm	Packaged Weight	23 kg

Led Illumination

Clear view of the inside

It can be tricky to see everything in your fridge, especially in the corners and at the back of selves. Led Illumination features chains of LED on the top of the fridge, and for every shelf on the side wall so you can see clearly throughout the cooler. It's more energy-efficient than standard lighting too.

MinFrost

Minimum frost build-up

Frost build-up in static fridges makes food stick together and the appliance consumes more energy. Thanks to MinFrost's special evaporation system, ice build-up in the freezer is dramatically reduced. That means frozen food will be preserved better and with less energy, while you'll need to defrost less frequently.

Reversible Door

Adjustable door direction to fit your kitchen layout

Some kitchen layouts require that refrigerator doors open in one direction and not the other. Reversible Door allows door hinges to be placed on both the left and the right of the unit, so decide which way your fridge doors open. Plus, you can double your cooling capacity by placing two fridges side by side and reversing the doors of one.

Safety Glass

High-durability glass shelves

Ease your worries of putting that huge and heavy pot in the fridge with Safety Glass. Safety Glass shelves are made up of tempered glass and can carry loads of up to 25 kg. They resist cracks and scratches much better than un-treated glass, so you can store heavy items without a care.
