

Expert cleaning and sanitizing

Our new Steam Care feature generates warm steam you can see inside the drum before the main part of certain washing cycles - which results in expert cleaning and sanitizing, as well as better washing performance. This device also has a program that can help you eliminate harmful bacteria, by washing clothes at a temperature of 60 °C for more than 30 minutes, as well as an anti-crease feature.

Wool program

If you love wearing wool, you'll know how important it is to wash these clothes properly, so they don't shrink or rip during the cycle. Our washing machines are Woolmark-certified, which means we are experts in caring for wool garments: thanks to an especially gentle washing program, with longer pauses, your favorite pieces will be as soft and beautiful as when you first bought them.

Baby care

All the parents out there will know how important it is to clean baby and children's clothes thoroughly, in order to reduce any possible negative effect on the little ones' health. With our baby care feature, the water inflow increases during each rinsing stage in order to completely remove any possible detergent residue - all to protect and care for our little boys and girls.

Night mode

If you're used to drying your clothes at night, or you simply want the device to be even quieter than usual, make sure to use our specially designed night mode. Once this feature is activated, the rotation speed will decrease, the drum will spin more gently, and the amount of air inside the drum will be limited, which makes the operation silent throughout the cycle.

Diamond-shaped drum pattern

With this series, we were also focused on improving Tesla washing machines' drums, in order to provide a 360° professional care for your clothes. The new inside pattern helps the machine remove stains quickly and efficiently, as well as reduces the possibility of tearing. Also, the machine has a light indicator that will remind you when it's time to run a drum self-cleaning cycle.

Soil level feature

This useful option helps Tesla Onyx washing machines adjust cycle settings in accordance with soil levels of different clothing items. Essentially, this feature allows you to indicate the amount of dirt on your laundry, so the machine can set the program accordingly. For example, if you indicate heavily soiled laundry, the device will prolong washing time, increase RPM etc.

Strong and beautiful.

KARAKTERISTIKE		
Napon		220V-240V~
Frekvencija		50 Hz
Kapacitet pranja		8 Kg
Snaga		2000 W
Potrošnja energije u stanju pripravnosti		1,0 W
Potrošnja energije u isključenom režimu		0,5 W
Maksimalna brzina centrifuge		1400 RPM
Standardni pritisak vode		0.05 ~ 1 Mpa
Displej		LED
Boja displeja		Bela
Zaključavanje vrata		Elektromagnetna brava
Motor		BLDC Motor
Vrsta utikača		EURO
Dužina napojnog kabela		1,5 M
Dužina dovodnog creva		1,0 M
Dužina odvodnog creva		16 M
OCENA SNAGE		
Klasa energetske efikasnosti		B
Klasa efikasnosti sušenja		B
Indeks efikasnosti pranja		1,03
Procenat preostale vlage		53,9%
Ponderisana potrošnja električne energije na 100 ciklusa		55 kW·h/100 ciklusa
Nivo buke (Centrifuga)		76 dB
