The digital control panel allows precise temperature adjustment, while the "Super Cool" and "Super Freeze" functions accelerate the cooling of larger quantities of food and automatically switch off after 6 and 40 hours, respectively. LED lighting ensures a clear view of the contents.

Four shelves made of solid tempered glass and a transparent drawer for fruits and vegetables offer numerous storage combinations for groceries.

The useful capacity of the refrigerator is 174 L, and the net capacity of the freezer is 16 L, providing ample space for the needs of larger families.

During installation, there is no need to use a ruler, pencil, or similar tools for installing the refrigerator in the cabinet and attaching the door.

The installation of the refrigerator in the kitchen unit and door mounting is quick, precise, and simple with the help of stoppers that are an integral part of the refrigerator's brackets and feet.

In addition to energy efficiency, this refrigerator stands out for its exceptionally quiet operation, with only 35 dB.
