NEW! Samsung Premium 'Wind Free' Digital Inverter Midwall Split range

Samsung takes the lead yet again with a new range of Digital Inverter Splits. A 2-step Cooling mode first cools air rapidly in Fast Cooling Mode, then automatically changes to Wind-Free mode as soon as the pre-set temperature is reached. Cool air is gently dispersed through 21 000 micro air holes, eliminating unpleasant direct draughts. And thanks to Samsung's Digital 8-Pole Inverter, up to 68% of energy is saved, as compared with conventional non-inverter airconditioners. An ultra-wide filter captures 99% of ultra-fine dust, while Virus Doctor technology reduces airborne bacteria and viruses by up to 99%. Finally, Samsung's Digital Wind-Free splits are Smart Wi-Fi enabled for maximum convenience. The perfect units for those who demand the best in airconditioning. Sold and supported nationwide by Fourways Airconditioning South Africa.
